

GREAT NORTHERN BEGINS NEW LINE

Condemnation Action Is Start
of Branch Through Vast
Montana Region.

Great Falls, Mont., May 5.—Coming as a complete surprise, the Great Northern Railway company today started condemnation proceedings for a right of way through Ferris county, it being stated in the complaint that the right of way is desired for the building of a branch line about 350 miles long, which shall run from Hauck siding on the Billings & Northern, a Great Northern branch, to a junction with the main line on the Great Northern at a point near Mondak on the Montana-Dakota line.

Condemnation proceedings are started in Ferris county only, because for the balance of the way the land is still very largely unoccupied and it is not believed that there will be any trouble over the right of way in that section.

In substance this means that the Great Northern is about to build an entirely new line from the Montana-Dakota line to Great Falls, and it will open up a great section of country heretofore without railway facilities. It touches at Lewiston, follows the Willam peak eastward to the Musselshell river, crosses that and then runs south of the Missouri river to or near its junction with the Yellowstone.

Already a good deal of the line has been surveyed and it is announced that dirt on the new line will soon be moving between Great Falls and Lewiston. As the Milwaukee company is also building between Lewiston and Great Falls, there is expected to be something of a race between them.

NO INDICTMENTS IN LORIMER ELECTION CASE

Chicago, May 5.—The special grand jury investigating Lorimer's senatorial election voted no indictments today.

State's Attorney Wayman, however, later said he had secured a confession from a member of the state legislature who, Wayman said, admits receiving \$1,000 for his vote for Lorimer.

This man's story, which is alleged to confirm Representative White's charges of bribery, related to the members of the grand jury shortly before adjournment.

FUNERALS.
PAYNE—All members of Naomi Rebekah lodge No. 1 and visiting members are requested to meet at S. D. Evans' undertaking parlor Saturday at 2 p. m. to attend the funeral of Sister Mattie C. Payne.

MCCARTHY—Funeral services over the remains of P. D. McCarthy will be held from O'Donnell & Co.'s chapel Friday at 4 p. m. Interment in Mt. Calvary.

VAUGHAN—In this city, Albert R. Vaughan, aged 31 years, remains will be shipped from O'Donnell & Co.'s today to his home in Chicago, Ill., for interment. Chicago papers please copy.

JONES—The funeral of John C. Jones will be held at the Tech ward meeting house Saturday, May 7, at 1 p. m. Remains may be viewed from 10 to 12 o'clock on day of the funeral.

Young Men
Know Style

But How About Quality?

HERE'S more to buying good clothes than one would think, and we are ready to show you just why.

Most young men have splendid style ideas, but they are not always familiar with quality, or tailoring, or what constitutes good fitting features.

"College Chap" clothes have been tried and not found wanting either in style, quality or good-fitting features, and we want you to prove this for yourself.

For the Suits which we sell at \$15 you would pay \$22.50 to \$25 if bought elsewhere.

We close at 9 p. m. Saturdays.

MRS. FELT HONORED BY CHURCH WOMEN

Primary Board President Presented With Unique Gavel at Her Reception.

A most pleasing and enjoyable event was the reception and banquet tendered last night by the women of the central organization of the Primary board to their president Mrs. Louise B. Felt, at the home of Mrs. Clara Beebe, 128 G street.

The gathering was not only for the purpose of honoring Mrs. Felt on the sixtieth anniversary of her birth, but also to celebrate the thirtieth anniversary of her installation as president of the board.

It was in 1880 that Mrs. Felt was elected to preside over the deliberations of the primary board, and she has held the office ever since without interruption. Twenty-three members of the board, accompanied by their escorts and the invited guests, attended the reception, and afterwards sat down to a fine banquet, served by twelve young women among whom were Mrs. Veda Buyer, Miss Gertrude Romney, Miss Vilate Romney, Miss Leah Nibley, Mrs. Julia Howell and Mrs. Clara John Howell. The dining room was handsomely decorated with flowers and ferns.

During the banquet Mrs. Felt was presented with a gavel made from the first tree ever planted in the Utah valley by Brigham Young. The handle was made from one of the original pipes of the tabernacle's big organ, and is held together with a band of silver, on which is the following inscription: "1880, Mrs. Louise B. Felt, president of the central organization, 1910." The presentation was made by Mrs. Lily Freeze.

During the evening Mrs. Emma Ramsey Morris rendered some beautiful solos, and Miss Annie Nibeker introduced a number of interesting games. A huge birthday cake, decorated with sixty candles, was cut by Mrs. Felt, and each person presented with a part.

Mrs. Hyrum Smith acted as toast-mistress and filled the position most acceptably. Among those present were: Apostle George Smith and Mrs. Smith, Apostle Hyrum Smith and Mrs. Smith.

NO DANCE HALL TO BE RUN AT SALT PALACE

Emil Lehman May Get License on One Condition, Says Committee.

Emil Lehman is to have the saloon privilege at the Salt Palace this season, if the action of the license committee last night is approved by the city council Monday night. The committee last night endorsed Lehman's application and rejected the application of Heath Brothers for a bar on the grounds just south of the Salt Palace grounds. The license will be granted with the understanding that there is to be no dance hall run at the Salt Palace this year.

The same committee also approved the application of the Clark Drug company for a druggist's liquor license in Sugar House, in the face of petitions against it.

Mary McGuffey will receive a license for an air dome, to cost \$55, for six months. The air dome is an open theatre, which will be erected on Third South street, just west of the Greenwald Furniture company. It will be sixty feet wide and 165 feet long, with a seating space for 950 persons.

At a meeting yesterday afternoon the alder and prison committee decided to buy only one automobile for a patrol wagon. It will be a Pope-Hartford and will cost \$5,500. It is a fifty-horsepower, ten passenger car, and will be delivered to the city in sixty days. Meanwhile an automobile will be furnished the police department by the Bolterill agency for a patrol wagon. The plan to purchase two auto patrol wagons has been passed up for the present.

SON OF MURRAY SOLON APPOINTED INSPECTOR

George Watts of the Fifth ward at Murray has been chosen by the Murray city council to fill the vacancy caused by the resignation of City Councilman Peter McMillan. The council has also passed a resolution authorizing the installation of a sewer system through Greek town. The work is to begin within two weeks and is to be rushed through speedily. Will Cahoon, son of James W. Cahoon, city councilman, has been appointed waterworks inspector of Murray.

KNOWLAND GETS BY WITH CHANGE

Important Amendment to Railroad Bill Affecting Rate Tariffs.

Washington, May 5.—Representative Knowland of California offered an amendment to the railroad bill today, providing when a railroad in competition with a water route lowered a rate, it should not be permitted to increase the rate until in a hearing before the interstate commerce commission it had shown a reason for the increase aside from the question of the water route.

This amendment was opposed by Mr. Mann, who asserted it would make section 15 of the interstate commerce act unconstitutional.

Democrats, insurgents and some regular Republicans, even members of the committee reporting the measure, supported Mr. Knowland's amendment, which, it was said, would prevent a railroad from eliminating water route competition by a low rate and then increase the rate as soon as the competition was removed. By 196 to 77 the amendment was adopted.

Mr. Madden of Illinois offered an amendment to strike from section 15 the provision that upon the change of a rate by a railroad the commission might suspend the rate for a period not longer than 120 days, leaving the law in such form that the period of suspension might be without limit.

Mr. Madden's amendment was defeated, 62 to 92.

Section 12, authorizing the consolidation of railroad lines under certain conditions and with approval of the commerce court, was taken up near the close of the session, and many amendments to it were offered, but not voted upon.

Mr. Mann offered an amendment making the approval of such transactions by the interstate commerce commission instead of the commerce court. Mr. Hubbard of Iowa proposed amendments that took from the bill all authority for such consolidation.

Mr. Mann expressed the hope that the final vote on the bill would be taken Tuesday.

SLIGHT HOPE HELD FOR ENTOMBED MINERS

Forty-Five Whites and 150 Blacks Caught in Trap by Explosion.

Palos, Ala., May 5.—All hope that any of the forty-five white and one hundred and fifty negro miners entombed in mine No. 3 of the Palos Coal and coke company by an explosion in the mine this afternoon may be rescued alive has been abandoned. It is thought that if any escaped death from the explosion they must have suffocated by black damp.

Officials of the mine say, according to their records, only 110 men are in the mine, but as a number of miners were employed under the contract system, their pay rolls are not completed. The explosion is supposed to have been caused by an uncovered lamp.

At midnight rescue parties had reached the 1,400-foot level and had found 11 bodies. Most of the miners were working in the 2,300-foot level at the time of the explosion and it is expected the other bodies probably will be found there. None of the bodies will be brought to the surface.

CATCHES HALLEY'S COMET.

Magnificent Spectacle Photographed at Lick Observatory.

San Jose, Cal., May 5.—Halley's comet was a magnificent object at Lick observatory this morning. Dr. Curtis photographed 18 degrees of the tail. At present distance the comet from the earth this corresponds to a length of 20,000,000 miles. A considerably greater length could have been photographed but 18 degrees was the capacity of the instrument. The best time to see the comet is between 3:30 and 4:45 a. m. The comet is almost directly east and about 10 degrees above the horizon, and the tail points directly away from the sun. Those who live in the glare of electric lights must expect to see the comet very imperfectly.

OFFERS \$1,000 FOR WIFE.

Los Angeles, May 5.—W. H. Pitman of this city increased to \$1,000 today the reward he had offered for the return of his wife, who left home on April 26, while temporarily insane. As Mrs. Pitman carried \$15,000 worth of diamonds and \$1,800 in currency, grave fears for her safety are entertained.

TESTS PRIMARY LAW.

Cleveland, May 5.—To test the constitutionality of the primary law in this state, F. R. Matthews, former county commissioner, filed suit here today to restrain the board of elections from placing the name of United States Senator Charles Dick on the Republican ballot. Senator Dick is the only Republican who circulated a petition to have his name voted on.

BALLINGER IS DEFIANT OF FOES

(Continued From Page One.)

not followed his natural impulses to answer the charges.

Ballinger said he had remained silent under all the abuse and had instructed his subordinates to do likewise. As a result he said Glavis had gone to Collier's Weekly with what he called his "scurrilous screed," and which they had re-hashed in the style they usually publish their scurrilous matter.

Asked by his attorney what he meant by saying his "hands had been up for months," Mr. Ballinger said they had been "not only up, but also tied." He added: "Now I don't want it understood I am in any way casting a reflection on a president to whom I am devoted and for whom I would make any sacrifice."

Mr. Ballinger then read a number of telegrams and letters which the "defense" claimed tended to show the existence of a conspiracy against him.

Money Wantonly Wasted.
Mr. Ballinger related an instance of what he regarded as maladministration of the forestry bureau under Pinchot. He said within the last month he had called to his attention that \$721,080 had been wantonly wasted on the Menominee Indian reservation in Wisconsin by the forestry bureau. He said the money had been turned over to the Indian office.

After some further questioning Mr. Ballinger made the following statement to the committee:

"Every act performed by me as a public official, either as commissioner of the land office or secretary of the interior, has been performed with the idea of making the best use of the money according to what I believed my duty. In every respect I believe I have lived up to it and if a statement has been made here to the contrary I want to deny it. I defy anyone to put his finger on anything I have done while in the public service, not in line with my duty and with my trust."

Attorney Brandeis began cross-examination of Mr. Ballinger at 3:30 p. m. The attorney referred to a letter Mr. Ballinger wrote to Schwartz stating he desired, in the making of appointments of a number of special agents of the accepted class in the Alaskan coal cases, Postmaster General Hitchcock should be consulted.

Mr. Ballinger said there might be a number of candidates and he thought Mr. Hitchcock might be able to assist in choosing the best men.

Mr. Ballinger resented the suggestion that he had been asked to consult Mr. Hitchcock merely to make political appointments. When he refused to make a fuller answer, Mr. Brandeis appealed to the committee to "request" the witness to do so.

A long argument ensued between Mr. Ballinger and the committee as to the propriety of political appointments.

Sutherland Would Retire.

Senator Sutherland said if it was wrong to make political appointments he intended to get out of politics.

In an effort to get Mr. Ballinger to more fully amplify his answer, Mr. Brandeis asked if there was any other reason why Mr. Hitchcock was consulted.

"I have said all I am going to say until the committee directs otherwise," Mr. Brandeis again appealed to the committee and Representative Graham made a motion that the witness be directed to answer the question satisfactorily. The motion was lost, 5 to 6.

Representatives McCall and Madison both voting with the Democrats.

Having failed to secure an admission from the secretary that Postmaster General Hitchcock had been consulted in his office, Mr. Brandeis took up another line. He called the witness' attention to a statement made by the secretary of the Land Office Denet last August by Special Agent McNenny, stating Senator Guggenheim had called on the President in behalf of Denet's retention as commissioner.

Mr. Brandeis then began questioning Mr. Hitchcock about what he did when he returned here from the west last summer. He showed surprising familiarity with the secretary's movements from the time he arrived here until he reached Beverly, where he went to see the President, even giving the names of those who met him, the hour of arrival, the hour of departure and the hotel at which he stopped in Beverly.

"I'm a little curious to know if you had a detective shadowing Mr. Ballinger?" interrupted Senator Root, addressing Glavis' attorney.

"No," replied Mr. Brandeis.

He added he would be glad to tell Mr. Root later how he happened to know what was noted, but the latter said he was quite satisfied.

The committee then adjourned until tomorrow.

NO REPORT ON CENSUS.

Director Durand Says Nothing Official Has Been Given Out.

Washington, May 5.—"Any report appearing in any newspaper to the effect that the census bureau has received any advance returns of the census of 1910, or has given out any information on the returns of enumerators, is wholly without foundation."

This was the formal declaration made today by C. Dana Durand, director of the census.

TONGS PUT PRICE.

(Continued From Page One.)

existed between the Lees and Yes since the troubles of last December came to an end. And last night the members of the Yes and Lee tongs were not on speaking terms. A majority of them were armed. Anticipating trouble, patrolmen in plain clothes were assigned to watch Plum alley.

FEARED DEATH NINE YEARS.

Brighton, Colo., May 5.—That Jesse W. Love, the truck gardener, who was shot and killed from ambush as he stepped from his own door Monday night, had lived in the fear of death nine years, was brought out by the testimony of his son, Ray Love, at the coroner's inquest here today. Love had kept the secret of the feud to himself, but the trouble is supposed to have originated in a dispute over water rights, nine years ago, with his Italian neighbors.
